**“The Forgotten
Refugees”**

This award winning, 50 minute documentary, explores the history and destruction of Jewish Middle Eastern communities in Egypt, Libya, Yemen and Iraq. Some of these communities were in existence for over 2500 years. The film weaves personal stories with archival footage of rescue missions and historical images of exodus and resettlement.

Following the film, our panel, Morris Teshuba, Dr. Reuben Hackam and Lydia Teshuba, will discuss some of their personal experiences.
